Identification of Resources

The identification of quality resources to support the objectives of the curriculum guides is critical in maintaining effective actualization of Core French curricula. The system of evaluation has been designed to ensure that educators who know the curricula will evaluate the material to verify that it meets the needs of teaching Core French in Saskatchewan.

Saskatchewan Learning defines a resource as any work that proposes activities or that shows, explains or illustrates notions to be used in teaching.

How to Use This Resource List

The resources included in this list are grouped alphabetically by title under the headings: General Resources and Middle Level Programs. Bibliographical information, followed by an annotation, selected Fields of Experience as well as Suggested Use accompany each title.

Criteria for Recommendation

The inclusion of a resource as recommended material in this list indicates that it respects the following criteria: conforms to the requirements of the curriculum guides; respects proper language use; respects all religions and moral values; and respects the guidelines of Saskatchewan Learning in regard to the elimination of stereotypes and discrimination.

Note: The selection of resources remains the responsibility of schools. Where relevant, the annotations contain cautions that are intended to alert teachers and teacher librarians to potentially controversial content within the selections. Each school should preview the documents mentioned in the resource update before selecting resources to ensure that they meet the needs of the school and the community. In order to do this, reference can be made to the school division policy on resource selection, as well as to the following Saskatchewan Learning documents:

Diverse Voices: Selecting Equitable Resources for Indian and Métis Education;
Learning Resource Centers in Saskatchewan: A Guide for Development;
Resource-based Learning: Policy, Guidelines and Responsibilities for Saskatchewan Learning Resource Centers; and *Selecting Fair and Equitable Materials.*

These Saskatchewan Learning documents pertaining to print and audiovisual materials offer excellent suggestions concerning policy development and the selection of resources. If they are not found in your school, they can be ordered from the Saskatchewan Learning Curriculum Distribution Service at: (306) 787-5987 or by consulting our catalogue at:
http://www.sasklearning.gov.sk.ca/branches/curr/curriculum_distribution_service/index.shtml.
